Wecandoo — Recruitment Team

Paris

Re: Application for ALTERNANCE - Business Developer B2B (24-month apprenticeship, starting September 2026)

Dear Hiring Manager,

I'm applying for the ALTERNANCE - Business Developer B2B apprenticeship at Wecandoo in Paris, starting September 2026 for a 24-month contract. I have three years of experience in business development, strategy consulting, and analysis, most recently as a Strategy and Marketing Corporate Consultant Intern at FORVIA, and I'm looking for an apprenticeship in business development at a company I can stay with long-term.

Wecandoo's marketplace connecting people with artisan-led workshops means its B2B business-development team has to convince genuinely traditional, often small-scale artisans that a digital platform is worth their limited time — a different sales conversation than a typical B2B pitch.

Business development is where I started my career. As a Business Development Executive at Endosys Technologies, I marketed products through conferences, live demonstrations, and direct customer conversations, and one product change I proposed based on customer feedback raised sales volumes by 20%. At FORVIA, I now study how markets and competitors evolve as part of the strategic-planning process, so I've seen business development from both the front line and the analysis side.

I'm currently completing a Master in Management at ESSEC Business School (ranked #10 globally in the Financial Times' 2025 Masters in Management ranking), with coursework in Strategy and Management, Marketing Management, and People and Organizations. Before that, I did a B.Tech in Mechanical Engineering at the National Institute of Technology Calicut (ranked #21 in India, NIRF 2025), with coursework in Operations Research, Project Management, Supply Chain Management, Quality Planning and Analysis, and Production Systems Management. The engineering degree gives me a technical grounding most business-school candidates don't have, and ESSEC has given me the strategy and commercial side.

I'm available to start in September 2026, and I'd welcome the chance to discuss how I could contribute to your team. Thank you for considering my application.

Sincerely,

Giridhar Dhananjay Khaza Venkata
