Believe — Recruitment Team
Paris

Re: Application for Alternante Assistant.e Chef.fe de Projet Merch & E-commerce (12-24 months apprenticeship, starting September 2026)

Dear Hiring Manager,

I am applying for the Alternante Assistant.e Chef.fe de Projet Merch & E-commerce apprenticeship at Believe in Paris, starting September 2026. I have three years of experience across business development, consulting and analysis, most recently as a Strategy and Marketing Corporate Consultant at FORVIA in Paris, and I am looking for an apprenticeship in product and marketing at a company I can build a career with rather than pass through.

Believe works on behalf of independent artists and labels who do not have their own commercial infrastructure, so its own merchandising and e-commerce work has to do the job a major label's in-house team would otherwise do. The role itself covers merchandising and e-commerce project management for artists and labels.

At FORVIA I assess how product lines are positioned and how the markets around them are moving, and I own the group's weekly newsletter, which is a marketing problem as much as an editorial one. At Endosys Technologies I marketed products through conferences, demonstrations and direct meetings, and took customer feedback back into the product itself — one design change I suggested increased sales volumes by 20%. ESSEC's Marketing Management coursework has given me the structure to go with that hands-on experience.

I am currently completing a Master in Management at ESSEC Business School, with coursework in Strategy and Management, Marketing Management, and People and Organizations. Before that I completed a B.Tech in Mechanical Engineering at the National Institute of Technology Calicut (ranked #21 in India, NIRF 2025), covering Operations Research, Project Management, Supply Chain Management, Quality Planning and Analysis, and Management of Production Systems. The engineering degree is where my analytical edge comes from — it taught me to break a problem down to what can actually be measured before arguing about it — and ESSEC has given me the strategic and commercial judgement to put that to work.

I am available from September 2026 and would welcome the chance to discuss how I could contribute to your team. Thank you for considering my application.

Sincerely,
Giridhar Dhananjay Khaza Venkata
