Sephora — Recruitment Team

Neuilly-sur-Seine

Re: Application for Alternance - Assistant Business Development Latam (F/H/X) (24-month apprenticeship, starting September 2026)

Dear Hiring Manager,

I'm applying for the Alternance - Assistant Business Development Latam (F/H/X) apprenticeship at Sephora in Neuilly-sur-Seine, starting September 2026 for a 24-month contract. I have three years of experience in business development, strategy consulting, and analysis, most recently as a Strategy and Marketing Corporate Consultant Intern at FORVIA, and I'm looking for an apprenticeship in business development at a company I can stay with long-term.

Sephora's global growth, as LVMH's beauty retail arm, depends on business-development teams that can adapt a proven retail model to very different markets — Latin America and Europe among them — without losing what makes the brand work in the first place.

Business development is where I started my career. As a Business Development Executive at Endosys Technologies, I marketed products through conferences, live demonstrations, and direct customer conversations, and one product change I proposed based on customer feedback raised sales volumes by 20%. At FORVIA, I now study how markets and competitors evolve as part of the strategic-planning process, so I've seen business development from both the front line and the analysis side.

I'm currently completing a Master in Management at ESSEC Business School (ranked #10 globally in the Financial Times' 2025 Masters in Management ranking), with coursework in Strategy and Management, Marketing Management, and People and Organizations. Before that, I did a B.Tech in Mechanical Engineering at the National Institute of Technology Calicut (ranked #21 in India, NIRF 2025), with coursework in Operations Research, Project Management, Supply Chain Management, Quality Planning and Analysis, and Production Systems Management. The engineering degree gives me a technical grounding most business-school candidates don't have, and ESSEC has given me the strategy and commercial side.

I'm available to start in September 2026, and I'd welcome the chance to discuss how I could contribute to your team. Thank you for considering my application.

Sincerely,

Giridhar Dhananjay Khaza Venkata
