Galeries Lafayette — Recruitment Team
Paris

Re: Application for Alternance Business Analyst Stratégie Commerciale (F/H) (12-24 months apprenticeship, starting September 2026)

Dear Hiring Manager,

I am applying for the Alternance Business Analyst Stratégie Commerciale (F/H) apprenticeship at Galeries Lafayette in Paris, starting September 2026. I have three years of experience across business development, consulting and analysis, most recently as a Strategy and Marketing Corporate Consultant at FORVIA in Paris, and I am looking for an analytical apprenticeship at a company I can build a career with rather than pass through.

Galeries Lafayette runs a store where every decision — what to buy, what it costs, how it is positioned — shows up on the floor the same week rather than in next quarter's numbers, so the feedback loop is unusually tight. The role itself covers commercial strategy analysis at the group's head office.

Analysis is what I do daily. At FORVIA I deliver competitor and market analysis — technical and financial — to Finance, M&A, Sales, R&D, Operations, Purchasing and Legal, which means the same finding has to hold up for seven audiences with different questions. I also own the group's weekly newsletter end to end, so I am practised at turning scattered inputs into something people actually read and act on. Before that, at GEP Worldwide, I turned client data into recommendations that produced a measurable 6% saving, and presented them to the client myself.

I am currently completing a Master in Management at ESSEC Business School, with coursework in Strategy and Management, Marketing Management, and People and Organizations. Before that I completed a B.Tech in Mechanical Engineering at the National Institute of Technology Calicut (ranked #21 in India, NIRF 2025), covering Operations Research, Project Management, Supply Chain Management, Quality Planning and Analysis, and Management of Production Systems. The engineering degree is where my analytical edge comes from — it taught me to break a problem down to what can actually be measured before arguing about it — and ESSEC has given me the strategic and commercial judgement to put that to work.

I am available from September 2026 and would welcome the chance to discuss how I could contribute to your team. Thank you for considering my application.

Sincerely,
Giridhar Dhananjay Khaza Venkata
