Coca-Cola Europacific Partners — Recruitment Team
Issy-les-Moulineaux

**Re: Application for ALTERNANCE 12 MOIS - Chef de projet Analytique H/F - Septembre 2026
(24-month apprenticeship, starting September 2026)**

Dear Hiring Manager,

I'm applying for the ALTERNANCE 12 MOIS - Chef de projet Analytique H/F - Septembre 2026 apprenticeship at Coca-Cola Europacific Partners in Issy-les-Moulineaux, starting September 2026 for a 24-month contract. I have three years of experience in business development, strategy consulting, and analysis, most recently as a Strategy and Marketing Corporate Consultant Intern at FORVIA, and I'm looking for an apprenticeship in strategy and consulting at a company I can stay with long-term.

Coca-Cola Europacific Partners, as one of the world's largest independent Coca-Cola bottlers, runs analytics functions that have to turn enormous volumes of retail and supply chain data into decisions that affect execution across dozens of markets at once.

Strategy is my current job. At FORVIA, I support the strategic plan directly — studying new markets, tracking competitors and product lines, and factoring in geopolitical shifts. Before that, as a Business Development Executive at Endosys Technologies, I owned commercial outcomes directly, including a product change that raised sales volumes by 20%. ESSEC's Strategy and Management coursework has sharpened that experience, and I want to keep working on strategy that actually gets implemented.

I'm currently completing a Master in Management at ESSEC Business School (ranked #10 globally in the Financial Times' 2025 Masters in Management ranking), with coursework in Strategy and Management, Marketing Management, and People and Organizations. Before that, I did a B.Tech in Mechanical Engineering at the National Institute of Technology Calicut (ranked #21 in India, NIRF 2025), with coursework in Operations Research, Project Management, Supply Chain Management, Quality Planning and Analysis, and Production Systems Management. The engineering degree gives me a technical grounding most business-school candidates don't have, and ESSEC has given me the strategy and commercial side.

I'm available to start in September 2026, and I'd welcome the chance to discuss how I could contribute to your team. Thank you for considering my application.

Sincerely,

Giridhar Dhananjay Khaza Venkata
