FORVIA — Recruitment Team

Nanterre (92)

Re: Application for Marketing & Strategy Apprentice (24-month apprenticeship, starting September 2026)

Dear Hiring Manager,

I'm applying for the Marketing & Strategy Apprentice apprenticeship within FORVIA, in Nanterre (92), starting September 2026 for a 24-month contract. I joined FORVIA earlier this year as a Strategy and Marketing Corporate Consultant Intern, and I'd like to turn that into a longer commitment with more functional depth, in product and marketing.

Having joined FORVIA earlier this year as a Strategy and Marketing Corporate Consultant Intern, I already understand the Group's strategic priorities and its cross-functional rhythm across Finance, M&A, Sales, R&D, Operations, Purchasing, and Legal, including owning a weekly newsletter that multiple teams rely on. An apprenticeship would let me build on that instead of starting over somewhere new.

My path into marketing runs through two different roles: at FORVIA, I study the positioning of product lines and how markets evolve around them as part of the strategic-planning process; earlier, at Endosys Technologies, I was on the front line marketing physical products through conferences, live demonstrations, and direct customer conversations, and I translated what I heard back into product changes that increased sales. ESSEC's Marketing Management coursework builds on that practical foundation.

I'm currently completing a Master in Management at ESSEC Business School (ranked #10 globally in the Financial Times' 2025 Masters in Management ranking), with coursework in Strategy and Management, Marketing Management, and People and Organizations. Before that, I did a B.Tech in Mechanical Engineering at the National Institute of Technology Calicut (ranked #21 in India, NIRF 2025), with coursework in Operations Research, Project Management, Supply Chain Management, Quality Planning and Analysis, and Production Systems Management. The engineering degree gives me a technical grounding most business-school candidates don't have, and ESSEC has given me the strategy and commercial side.

I'm available to start in September 2026, and I'd welcome the chance to discuss how I could contribute to your team. Thank you for considering my application.

Sincerely,

Giridhar Dhananjay Khaza Venkata
