FORVIA — Recruitment Team

Nanterre (92)

Re: Application for Sales Apprentice (24-month apprenticeship, starting September 2026)

Dear Hiring Manager,

I'm applying for the Sales Apprentice apprenticeship within FORVIA, in Nanterre (92), starting September 2026 for a 24-month contract. I joined FORVIA earlier this year as a Strategy and Marketing Corporate Consultant Intern, and I'd like to turn that into a longer commitment with more functional depth, in strategy and business development.

Having joined FORVIA earlier this year as a Strategy and Marketing Corporate Consultant Intern, I already understand the Group's strategic priorities and its cross-functional rhythm across Finance, M&A, Sales, R&D, Operations, Purchasing, and Legal, including owning a weekly newsletter that multiple teams rely on. An apprenticeship would let me build on that instead of starting over somewhere new.

Strategy and business development is my current job. At FORVIA, I support the strategic plan directly — studying new markets, tracking competitors and product lines, and factoring in geopolitical shifts. Before that, as a Business Development Executive at Endosys Technologies, I owned commercial outcomes directly, including a product change that raised sales volumes by 20%. ESSEC's Strategy and Management coursework has sharpened that experience, and I want to keep working on strategy that actually gets implemented.

I'm currently completing a Master in Management at ESSEC Business School (ranked #10 globally in the Financial Times' 2025 Masters in Management ranking), with coursework in Strategy and Management, Marketing Management, and People and Organizations. Before that, I did a B.Tech in Mechanical Engineering at the National Institute of Technology Calicut (ranked #21 in India, NIRF 2025), with coursework in Operations Research, Project Management, Supply Chain Management, Quality Planning and Analysis, and Production Systems Management. The engineering degree gives me a technical grounding most business-school candidates don't have, and ESSEC has given me the strategy and commercial side.

I'm available to start in September 2026, and I'd welcome the chance to discuss how I could contribute to your team. Thank you for considering my application.

Sincerely,

Giridhar Dhananjay Khaza Venkata
